

Buyer's Checklist

This checklist is designed as a quick reference for buyers going through the evaluation and purchase process for online fraud mitigation solutions.

1

REQUIREMENTS

What is the problem you are trying to solve? _____

What are your deployment/infrastructure requirements? _____

What is your budget? _____

Who are the project stakeholders? _____

2

VENDOR EVALUATION

Have you identified multiple vendors? _____

Have you submitted a request for information (RFI) template? _____

Are the vendor responses complete? _____

Do they have case studies? _____

Can they solve other use cases that you may experience or wish to address in the future? _____

3

PRODUCT DEMONSTRATION

Does the solution fit your needs? Is it catching things your current solution misses or creating false positives? _____

Does policy management provide the flexibility to meet your requirements? _____

Does the product require you to manually configure it? _____

4

BUSINESS CASE

Has the vendor demonstrated they can solve the problem? _____

Have they demonstrated ROI? _____

Have they shown they can fit your deployment criteria? _____

Can they satisfy additional requirements (e.g., compliance)? _____

Have they shown that high levels of support will continue post-sales cycle? _____
